Homework 8 Due: Monday 11/17 in class (performed on Zybooks)

Log into Zybooks, http://www.zybooks.com
The purpose of this homework is to practice pointers in C and learn a popular use for
them – Linked List. The exercises are activities (including reading) that you do not turn
in. Assignments are tasks you will complete, printout and turn in.

You are allowed to work in groups of 2 on homework. Each student must turn in their
own solution. If you will miss class you are allowed to turn in homework to your
professor before class. To get credit for homework you must complete all questions, but
the official score will be completion. i.e., we will not check the answers.

Exercise 8.1: Read Chapter 8 sections 8.1-8.2.

Assignment 8.1: Do Challenge homework activities 8.1.1 and 8.1.2

Exercise 8.2: Read Chapter 8 sections 8.8-8.9.

Assignment 8.2: Do Challenge homework activities 8.9.1
