Homework 9 Due: 5pm Tuesday 11/19 (performed on Zyante)

Log into Zyante, http://utedxfall13.zyante.com

Exercises are activities you should do on Zyante, but will not turn in for a grade. **Assignments** must be completed. We can download your scores from Zyante for the questions. Therefore your grade will reflect your answers on Zyante. You are allowed to work in groups of two students on homework, but each student must turn in their own solutions.

Exercise 9.1: Read all the sections in Chapter 6 available in the EE319K version (the free version). In particular these sections are 6.1, 6.2, 6.3, 6.12. 6.15, and 6.16

Assignment 9.1: Do these questions on Zyante
Question Set 6.1.1: Function basics
Question Set 6.2.1: Parameters and return values.
Question Set 6.3.1: Function definitions.
Question Set 6.3.2: Function calls.
Question Set 6.3.3: Function call interpreting and writing
Question Set 6.10.1: Function definitions
Question Set 6.10.2: Functions with pass by pointer
Question Set 6.12.1: Variable/function scope.
Question Set 6.16.1: Separate files

You do not have to do these two, because they were completed as part of HW6)
Question Set 6.3.4: Function calls with multiple parameters (this one was completed in HW6)
Question Set 6.15.1: Include directive (this one was completed in HW6)

Exercise 9.2: Read all the free sections in Chapter 8 available in the EE319K version (the free version). In particular these sections are 8.1, and 8.2

Assignment 9.1: Do these questions on Zyante
Question Set 8.1.1: Why pointer
Question Set 8.2.1: Pointer basics
